CHERP, the “Community Home Energy Retrofit Project”

Local Citrus Heights Resident Jack Frost will explain in detail how a CHERP Home Energy Retrofit reduced their monthly utility costs by over 87%, and how they received over \$8,600 in combined rebates from SMUD & PG&E and \$6,000 from a 30% Federal Tax Credit for Solar and also increased their home value without a “reassessment” or increase in their property taxes!

NON-PROFIT CHERP REPRESENTATIVES WILL BE ON HAND TO SHOW YOU HOW TO GO SOLAR, KEEP ALL THE TAX CREDITS FOR YOURSELF, AND INCREASE YOUR HOME VALUE!

CHERP is a non-profit organization dedicated to teaching homeowners how to “maximize” the benefits of a “Home Energy Retrofit.” CHERP teaches homeowner’s about a wide range of energy-efficient upgrades that qualify for utility rebates from PG&E and SMUD to help them reduce the overall cost of energy-efficient improvements. This process allows homeowners to “reduce” the need for a large and expensive solar unit but still allows them to qualify for a 30% Federal Tax Credit on the less expensive solar system they install. This method will “maximize” utility cost savings and “minimize” the net cost of energy improvements. CHERP informs homeowners about a growing range of energy financing programs that don’t require equity or perfect credit. Homeowners who follow CHERP’s guidelines are generally able to create a “positive monthly cash flow” with little to no money “out of their pocket.”

CHERP doesn’t sell any products or services but workshop attendees receive a “Gift-Certificate” from CHERP “Best of Class” Contractors certified by PG&E and SMUD to perform home energy assessments, install energy upgrades, and process utility rebates.

Homeowners are under no obligation to do business with CHERP “preferred” venders and are directed to PG&E and SMUD’s websites where they can access a list of all certified and approved Home Performance Contractors.

Bonus! All Citrus Heights residents are eligible for rebates from both PG&E and SMUD plus the 30% Federal Tax Credit! Yahoo!
